Output Module for the Primera Signature Slide Printer

The 100-slide Output Module extends the capability of the Signature Slide Printer to print larger batches of slides

- Ideal for printing major cases that require printing of up to 100-slides on demand
- The Output Module enables a cost effective solution for batch printing to increase walkaway time
- Removable slide container to hold batches of up to 100-slides for continuous slide printing
- Simple low maintenance mechanical design
- Easily adapts to Signature Slide Printer with minimal modification
